

Wirth Warned Cox U. S. Must Help Europe

Economic Dissolution Near
in Central States, Former
Ohio Governor Says German
Chancellor Told Him

Dines With Lloyd George

Col. House and Issues
Statement to British Press
on His Cleanings Abroad

LONDON, Aug. 26 (By The Associated Press).—James M. Cox, former Democratic candidate for President, was the guest of Prime Minister Lloyd George at breakfast to-day. Last night Mr. Cox dined with Colonel E. M. House, who is now in England visiting friends.

Before going to the Premier's residence, in Downing Street, this morning, Mr. Cox gave out a statement to the American and British press dealing with the economic plight of Europe, and the German Chancellor, Dr. Wirth, as saying to him a few days ago in Berlin.

When the United States interests are in European affairs within a very short time, all in Germany is lost, and all in Central Europe as well," State of Things Tragic

Mr. Cox's statement in part follows: "The storm center of the economic crisis is Central Europe. Those who have waited Austria and Germany are now in a position as to the state of things and the tragic point to which both countries are drifting. Austria has reached a stage of almost complete dissolution. The approach of Germany to the same condition is steadily marked by every passing hour.

The nations of Europe are deadlocked on the reparations question. There seems to be no relief on this side of the Atlantic. The master key is held by the United States. No decision by England seems likely to be accepted by the French. The French government will not sanction a proposal from Germany which might approximate a readjustment of the figures now in the hands of French statesmen, because at this time France is aggressively military, and second, that Germany is making munitions and preparing for war. The military policy of France is based upon the desire to protect herself against invasion. With assurances at this point she will reduce her army.

Germany Desires Peace
The government of Germany desires peace. The leaders are progressively democratic, and the story of hidden arms, with the exception of unimportant sporadic community instances, is

pure fiction. Germany has 20,000,000 more people than she can sustain except under high industrial stress. When the mark was 100 to 200 to the dollar there were certain trade advantages accruing to Germany, but in the present circumstances the banks of Germany cannot finance the industries of that country in the purchase of raw products and foodstuffs.

"Unless relief is granted shops will soon be closing, millions will be out of employment, and the winter will bring the threat, if not the certainty, of starvation.

Three Considerations
Three considerations, said the statement, would cover every shade of American public opinion:

"First, if from a moral awakening we desire to relieve distress, the opportunity is presented.

"Second, if our desires are purely practical and a market for our products is to be gained, the necessary rehabilitation of Europe, is guaranteed.

Third, if our policy is to insist upon the ultimate payment of the inter-Alleied debt, we must remember with the world's debtors are and realize that if some of them are permitted to go to ruin now there is not even a remote chance of collection later."

Mr. Cox said it was not too late to prevent disaster, that the American government, acting in intervention on behalf of the United States, could do it without any inconsistency with the existing policy. Mr. Cox also advocates the designation of Herbert Hoover as an American representative on the Reparation Commission.

Saxony Takes Steps to Check "Selling Out" to Foreigners

BERLIN, Aug. 26.—A sharp lookout is being kept along the frontiers of Saxony in an effort to prevent the province from being "sold out" to foreigners. The steps are aimed chiefly at Czech traders, who are taking advantage of the latest increase in the value of the crown to make wholesale exports.

In the Zittau district roads leading to the border have been barricaded and all vehicles are being closely searched. All Czechs leaving Saxony, particularly women, are being searched.

Colombia Has New Cabinet
BOGOTA, Colombia, Aug. 26.—A new Cabinet composed entirely of Conservatives has been named by President Nel Ospina. It comprises the following Ministers: Interior, Jimenez Lopez; Foreign Relations, Jorge Velez; Education, Alberto Porto Carrero; Public Works, German Uribe; Finance, Felix Salazar; War, Jose Uribe Uribe; Treasury, Gabriel Posada Villa, and Agriculture, Antonio Paredes.
